TM-PC SOFTWARE / TM-PC PLUS SOFTWARE
ADVANCED TIME ATTENDANCE SOFTWARE

POWERFUL WORKFORCE MANAGEMENT AT YOUR FINGERTIPS

Included with every TimeMoto terminal, this powerful software puts a host of useful functions at your fingertips. Generate instant, up-to-date fire roll-call reports; create daily, weekly, monthly and periodic reports per department and employee; track job costing, hours, overtime, and absences; design employee schedules; define pay classes and payment reports; export your data to Excel, CSV, PDF or your preferred payroll program—all with an unlimited database, automatic backups and support for multiple TimeMoto terminals.

EXTENDED SCHEDULING AND REPORTING OPTIONS

Our PC Plus software adds a treasure trove of extended features to the PC software's already rich set: schedule all 24 hours of the day in shifts; track employee arrival and departure outside standard work hours; track annual vacation and work time for each employee; balance schedules to minimize overtime; and specify special holiday hours for use in your scheduling.
